Globalstar further solidified its unique role as the leading innovator of award-winning MSS retail consumer products by releasing SPOT Connect

- Wirelessly synchs via Bluetooth with smartphone operating systems like Android and iPhone
- Provides one-way messaging connectivity using the Globalstar satellite network for sending GPS location-based text messages to friends, family and co-workers
- SPOT Satellite GPS Messenger features are initiated using the SPOT Connect app on the smartphone device

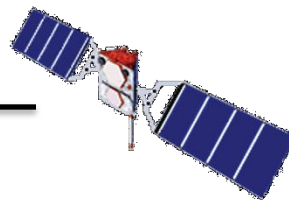

How SPOT Works

GPS Satellites provide exact coordinates to SPOT

Spot's small hand-held design is easy to use in and out of the car

Satellite Communication Technology can send messages from virtually anywhere

Emergency Response

Roadside/Boat Assistance

Staying Connected

History

Over 300,000 SPOTs have been sold since the launch of SPOT in August 2007

More than 1,850 rescues initiated with SPOT in more than 102 countries since 2007.

Average response time from the receipt of SOS message until referring an emergency responder is only 11 minutes

Responses as far north as Arctic Circle and Northern Siberia and as far south as the Tasmanian Sea.

Types of Incidents

- Maritime
- Hiking
- Hunting
- Airplane/Helicopter
- Snow skiing
- Avalanches
- Lost or disoriented persons
- Automobile
- All Terrain Vehicle
- Medical
- Farm and Ranch
- Natural Disasters

What Is Next

Smaller more feature rich devices

Expanded free texting capability

Duplex ASIC based devices in future
